Work Experience:

Om Vapors | January 2018 – Current

Working at Om Vapors, I take on many positions and am constantly faced with unique challenges. I typically work in the clean room where we (myself with 2-3 other people) mix, bottle, label, and keep inventory of all the juice being produced by Om. I am also their primary graphic designer, photographer, and 3D artist; I design the labels for the bottles, take product and promotional photography, and model/print any 3D component we may need. Working with this fairly small and new business has taught me how to make the most of my time for the better of the company, as well as teaching me new skills, such as how to build a clean room, a doorway, how to handle hazardous material, and how to use a variety of new computer programs and hardware and has given me insight as to how a business runs.

Independent Contracting | April 2017 - Current

As an independent contractor, I work directly with clients and negotiate what services I can provide for the client and the client and I work out a contract that binds us to fulfilling our end of the deal. Doing this, I have made a website for Everything Rocks company at EverythingRocks.co, and I currently work as a director/videographer/editor for a DIY "how-to" style web series for Everything Rocks that I maintain on YouTube. This is negotiated on a job-to-job basis. In addition, I continue to maintain/update the website as needed. Likewise, I have done wedding, event, and product photography, and have created and currently manage websites for multiple clients.

Uber Driver | Uber | June 2018 - Current

Delivery Driver | Papa Johns | February 2016 – June 2018
